

THERMOMETER Chart

<https://trumpexcel.com/thermometer-chart/>

Most certainly you have seen these types of Thermometer Charts used before. They are usually hanging somewhere near organizations that perform or conduct fundraising activities. Albeit not the norm for research administration, in developing dashboard visualizations or charting performance as a percentage of a target, thermometer charts are an effective way to illustrate your data.

Access **THERMOMETER Chart Template.xls**

This data file is set up so you can use this as a template for implementing this THERMOMETER Chart for any future use cases you may have.

- The first column is the Month that you are reporting awards data for. Be creative this can be used for awards data for faculty members, center, departments, divisions, and even colleges.
- The second column is the value of the awards that have collected from another primary data source.
- The Thermometer Chart is a combination of 2D Clustered Column Chart.

MONTH	AWARDS
JULY	625000
AUG	250000
